SUMMARY

Time Warner NY Cable LLC, d/b/a Time Warner Cable (“TWC”), operator of the cable television system (the “Hudson Valley System”) serving communities throughout the Hudson Valley of New York in the counties of Dutchess, Orange, Sullivan and Ulster (the “TWC Communities”) demonstrates conclusively in this Petition for Special Relief that the evidentiary factors utilized by the Commission to assess the merits of a market modification proposal dictate modification of WLNY-TV’s DMA to exclude the TWC Communities. TWC shows that although WLNY-TV has been on-the-air since 1985, it has never been carried by the Hudson Valley System, nor has WLNY-TV been carried by other cable systems in the Hudson Valley. Further, TWC establishes that the TWC Communities are situated well beyond the natural geographic market of WLNY-TV formed by its predicted digital noise-limited contour coverage, at distances ranging from 74 to 138 miles from Riverhead, NY, WLNY-TV’s city of license. Moreover, WLNY-TV appears to air no local programming expressly directed toward residents of the distant TWC Communities. Additionally, the economic nexus between the TWC Communities and Riverhead is virtually non-existent.

As shown by TWC, modification of WLNY-TV’s market as proposed herein would be fully consistent with Commission precedent. In dozens of decisions over the years, the Commission has held that evidentiary factors such as no historical cable carriage, distances of 74 to 138 miles between the station and cable communities, the absence of digital noise-limited (and formerly analog Grade B) signal coverage and programming service to cable communities, the absence of ties between the station’s city of license and the cable communities, a dearth of local viewing audiences, and the cable system’s carriage of other stations with a nexus to the cable communities justify modification of the subject television station’s market. In conclusion, TWC

has established in this Petition for Special Relief that deletion of the TWC Communities from WLNY-TV's market for mandatory carriage purposes will effectuate the purposes of Section 614 of the Communications Act.

PETITION FOR SPECIAL RELIEF

Time Warner NY Cable LLC, d/b/a Time Warner Cable (“TWC”), by its attorneys and pursuant to Sections 76.7(a)(1) and 76.59 of the Commission’s Rules, submits this Petition for Special Relief that requests the Commission exclude certain communities in the Hudson Valley of New York (“the TWC Communities”)¹ from the television market of Station WLNY-TV(47), Riverhead, NY (“WLNY-TV”) for purposes of the cable television mandatory carriage rules.

Preliminary Statement

It is firmly established that the Commission will delete a cable community from a television station’s market² when the station: (1) has no history of carriage on the subject cable system; (2) is geographically remote from, and fails to provide a digital noise-limited (or in

¹ The TWC cable system serves 80 communities in the Hudson Valley in the counties of Dutchess, Orange, Sullivan and Ulster, New York (the “Hudson Valley System”). The headend is located in the Town of Mamakating in Sullivan County. The communities served by the Hudson Valley System that are subject to this Petition are listed in Exhibit 1 attached hereto.

² Defined, effective January 1, 2000, as the station’s Designated Market Area (DMA) as determined by Nielsen Media Research. See 47 C.F.R. § 76.55(e)(2).

earlier cases, an analog Grade B) signal contour over, the cable community; (3) fails to broadcast programming of specific local interest to residents of the cable community; and (4) fails to achieve significant reported viewership in the cable system's home county. In a multitude of cases over the years, the Commission has redrawn a television station's ADI or DMA boundary to reflect the particular facts that distinguish the subject cable community from the rest of the station's market.

As TWC will demonstrate herein, although the Hudson Valley System operates in the New York City, NY DMA, which includes WLNY-TV, and WLNY-TV may therefore assert must-carry rights on the Hudson Valley System, the relevant factors in market modification proceedings plainly support removal of the TWC Communities from the market of WLNY-TV. In summary, WLNY-TV: (1) has never been carried by the Hudson Valley System; (2) is geographically distant from the communities served by the Hudson Valley System; (3) fails to provide a digital noise-limited contour over any areas served by the Hudson Valley System; (4) fails to broadcast programming of specific local interest or import to the residents of the TWC Communities; and (5) fails to achieve any measureable viewing audience in the home counties of the TWC Communities. Nor is there any apparent economic or other nexus between Riverhead, NY and any of the TWC Communities. In sum, consistent with Commission holdings in a long line of past market modification cases involving similar factual circumstances, including four separate modification decisions that excluded communities from WLNY-TV's market,³ the

³ See *Home Link Communications of Princeton, L.P.*, 13 FCC Rcd 1578 (CSB 1997) (modifying WLNY-TV's market to exclude communities in the counties of Somerset, Hunterdon, Morris and Mercer, New Jersey); *Service Electric Cable TV of New Jersey, Inc.*, 11 FCC Rcd 22561 (CSB 1996) (modifying WLNY-TV's market to exclude communities in the counties of Sussex and Warren, New Jersey); *Continental Cablevision of Western New England, Inc.*, 11 FCC Rcd 6488 (CSB 1996) (modifying WLNY-TV's market to exclude communities in the counties of Rockland and Westchester, New York); *Time*

Media Bureau should grant TWC's request for special relief and modify WLNY-TV's market to exclude the TWC Communities.

Market Facts and Background

The New York City DMA

The New York, NY DMA is the nation's largest DMA and television market. The wide-spread DMA encompasses 29 counties in New York, Connecticut, New Jersey and Pennsylvania. In addition to stations licensed to New York City, the DMA includes commercial stations licensed to Bridgeport, CT; Linden, NJ; Newton, NJ; Paterson, NJ; Secaucus, NJ; Kingston, NY; Poughkeepsie, NY; Riverhead, NY and Smithtown, NY.

Station WLNY-TV

WLNY-TV is the only television broadcast station licensed to Riverhead, NY. WLNY-TV is an independent station that began operations April 28, 1985 as station WLIG.⁴ The station changed its call sign to WLNY in 1996 and WLNY-TV in 2009.

The TWC System

The TWC System serves 80 communities located throughout the Hudson Valley of New York in the counties of Dutchess, Orange, Sullivan and Ulster.

Warner Entertainment-Advance/Newhouse Partnership, 11 FCC Rcd 6541 (CSB 1996) (modifying WLNY-TV's market to exclude communities in Bergen County, New Jersey).

⁴ WLNY-TV, Advanced TVFactbook, available at <http://www.tvcablefactbook.com/> (subscription required).

Market Modification Criteria

Pursuant to Section 4 of the Cable Television Consumer Protection Act of 1992 (the “1992 Cable Act”)⁵ and the related rules adopted by the Commission in its *Report and Order* in MM Docket No. 92-259 (“*Report and Order*”),⁶ a commercial television station may assert must-carry rights on cable systems located within the station’s market. In Section 614(h)(1)(C)(i) of the 1992 Cable Act, Congress provided that the Commission may:

with respect to a particular television broadcast station, include additional communities within its television market or exclude communities from such station’s television market to better effectuate the purposes of this section.⁷

In adopting Section 614(h)(1)(C), Congress made abundantly clear its concern that the new must-carry rules not mandate cable carriage of stations that are not considered “local” by a system’s subscribers. This policy is reflected in the House Report of Section 614(h)(1)(C), as follows:

The Committee recognizes that since ADIs are drawn along county lines, they may, in some instances, inaccurately reflect the stations which are local to a particular community. . . . [T]he FCC may make an adjustment to include or exclude particular communities from a television station’s market consistent with Congress’ objective to ensure that television stations be carried in the areas which they service and which from their economic market.⁸

TWC shows herein that the need for special Commission relief contemplated by Congress is self-evident in the case of WLNY-TV’s entitlement to carriage on the Hudson Valley System. As demonstrated below, WLNY-TV does not provide local service to the TWC Communities. Nor is there any economic, cultural, social or demographic commonality that

⁵ Pub.L.No. 102-385, 106 Stat. 1460 (1992).

⁶ *Must Carry and Retransmission Consent Requirements*, 8 FCC Rcd 2965, 2976-77 (1993).

⁷ 47 U.S.C. §534(h)(1)(C)(i) (emphasis added).

⁸ H.R. Rep. 102-628, 102d Cong., 2d Sess. 97 (1992).

bridges the long distances and geographic obstacles between WLNY-TV and the TWC Communities. Accordingly, WLNY-TV's right to mandatory carriage on the Hudson Valley System is subject to the waiver criteria established by Congress in Section 614(1)(C) of the 1992 Cable Act, which directs the Commission to:

[A]fford particular attention to the value of localism by taking into account such factors as –

(I) whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community;

(II) whether the television station provides coverage or other service to such community;

(III) whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and

(IV) evidence of viewing patterns in cable and noncable households within the areas served by the cable system or systems in such community.⁹

In the *Report and Order* implementing the 1992 Cable Act's must carry provisions, the Commission provided guidance on the showings to be submitted to meet these evidentiary factors, while emphasizing that it was not restricting the types of evidence it would consider in a market modification case.¹⁰ In its 1999 *Order on Reconsideration and Second Report and Order* in CS Docket No. 95-178,¹¹ the Commission adopted a standardized evidence approach for modification petitions that is reflected in amended Section 76.59(b) of the FCC's rules.¹² The

¹² 47 C.F.R. § 76.59(b).

discussion below details the many factors that support grant of the special relief requested herein.

The Statutory Factors

A. WLNY-TV Has No History of Carriage on the Hudson Valley System

Since it began operations almost 27 years ago, WLNY-TV has no history of carriage on the Hudson Valley System. The absence of WLNY-TV from the Hudson Valley System during its lengthy operational history is attributable to the fact that the TWC Communities are located outside the scope of WLNY-TV's natural market – in terms of distance, signal coverage and the provision of programming of particular interest or appeal to subscribers of the Hudson Valley System. This is further confirmed by the fact that WLNY-TV is also not carried by the two other cable operators, Cablevision and Margaretville Telephone Company (MTC), which serve portions of the counties where the TWC Communities are located.¹³ In view of WLNY-TV's opportunity to build a record of historic carriage on the Hudson Valley System and nearby cable systems, this is plainly an instance when long-term non-carriage reflects the station's lack of geographic proximity to the subject cable communities. Accordingly, the absence of historic carriage is a probative factor in this proceeding.¹⁴

B. WLNY-TV Fails to Provide Any Coverage or Local Service to the TWC Communities.

1. Distance Factors

Each of the TWC Communities is located a decisionally significant distance from Riverhead, NY, WLNY-TV's city of license. Thus, as shown below, the mileage distances between Riverhead and the TWC Communities and the travel times/road distances between Riverhead and representative communities of the Hudson Valley System graphically portray the

¹³ See Exhibits 2 and 3.

¹⁴ See, e.g., *Comcast Cable Communications, LLC*, 26 FCC Rcd 14453, 14462 (MB 2011).

remoteness of the TWC Communities from WLNY-TV.

<u>CITY</u>	<u>AIR MILE DISTANCE</u>¹⁵	<u>DRIVE TIME/DISTANCE</u>¹⁶
Mamakating (headend location)	105 miles	2:43/147 miles
Highland Falls (closest city or village to Riverhead)	74 miles	2:17/117 miles
New Palz	94 miles	2:46/147 miles
Tivoli	102 miles	3:20/176 miles
Fremont (most distant Cable community)	138 miles	3:37/195 miles

As shown in Exhibit 5, the drive from Riverhead, located on the easternmost portion of Long Island, to the TWC Communities is over of 2 hours (and over 3 hours to many of the communities) and requires driving nearly the full length of Long Island before heading upstate for another 60 plus miles. Moreover, Riverhead's Long Island location serves to isolate the area, which is clearly distinguishable from the Hudson Valley locales of the TWC Communities. These factors, coupled with the distances, preclude any economic and business ties between these two distinct areas of New York State. For instance, according to data from the U.S. Census, a mere 0.05% of workers in Suffolk County, the county where Riverhead is located, commute from Dutchess, Orange, Sullivan or Ulster Counties, the counties where the TWC Communities are located.¹⁷ Similarly, of all the workers in Dutchess, Orange, Sullivan and

¹⁵ See Exhibit 4.

¹⁶ See Exhibit 5.

¹⁷ See United States Census 2000, County-To-County Worker Flow Files, *available at* <http://www.census.gov/population/www/cen2000/commuting/index.html>.

Ulster Counties, only 0.06% commute from Suffolk County.¹⁸ Additionally, the New York Interconnect treats Long Island and the Hudson Valley area as separate sub-zones for advertising purposes.¹⁹

The Commission has recognized in numerous market modification cases that long distances can attenuate the local ties a station might otherwise have with the cable communities served by a market modification petitioner. The 74 to 138 range of air mile distances between Riverhead and the TWC Communities is comparable to or beyond the distances involved in prior cases where the Commission has modified a television station's market, as shown by the following examples:

<u>Decision</u>	<u>Distance Between Cable System and TV Station City of License</u> ²⁰
<i>Armstrong Utilities, Inc.</i> ²¹	51.4-85.5 miles
<i>Time Warner Cable</i> ²²	53-75 miles
<i>Time Warner Entertainment</i> ²³	58 miles (average)
<i>Continental Cablevision of Western New England</i> ²⁴	65-69 miles
<i>Massillon Cable TV, Inc.</i> ²⁵	71-80 miles
<i>Comcast Cable Communications, LLC</i> ²⁶	89-93 miles
<i>Home Link Communications</i> ²⁷	90+ miles

¹⁸ See *id.*

¹⁹ See New York Interconnect, System Map, <http://www.nyinterconnect.com/system-map>; see also *Continental Cablevision of Western New England*, 11 FCC Rcd at 6510 (citing the fact that the New York Interconnect classifies Long Island and the Hudson Valley in different advertising zones as further evidence that the areas are not connected for economic purposes).

²⁰ Ranges of distance are shown for multiple cable communities.

²¹ *Armstrong Utilities, Inc.*, 21 FCC Rcd 13475, 13479 (MB 2006).

²² *Time Warner Cable*, 17 FCC Rcd 9542, 9546 (MB 2002).

²³ 11 FCC Rcd at 6555.

²⁴ 11 FCC Rcd at 6510.

²⁵ *Massillon Cable TV, Inc.*, 26 FCC Rcd 15221, 15225 (MB 2011).

²⁶ *Comcast Cable Communications, LLC*, 20 FCC Rcd 10093, 10096 n.15 (MB 2005).

²⁷ 13 FCC Rcd at 1581.

<i>Service Electric TV of New Jersey</i> ²⁸	90-103 miles
<i>Time Warner NY Cable LLC</i> ²⁹	72-104 miles
<i>Comcast Cable Communications, LLC</i> ³⁰	140 miles (average)

The *Continental Cablevision of Western New England* case is particularly instructive. In that case, the Commission excluded from WLNY-TV's market communities located in the Hudson Valley New York counties of Rockland and Westchester. These communities were located 65-69 miles from Riverhead, closer than the TWC Communities, and yet the Commission found the statutory factors supported modification of WLNY-TV's market.³¹

2. Signal Coverage Factor

As further evidence of WLNY-TV's lack of geographic proximity and service to the TWC Communities, WLNY-TV fails outright the contour coverage test for establishing local television service to the TWC Communities.³² Traditionally, the analog Grade B contour was used to define station's service area. After the digital transition with the Grade B contour no longer in existence, the Commission has clarified that the 41 dBu digital noise-limited contour is the "functional equivalent" of the analog Grade B contour and should be used going forward.³³ The attached Engineering Statement prepared by the consulting firm of Cohen, Dippell & Everist, P.C.³⁴ shows that WLNY-TV's predicted noise-limited contour does not come close to any of the TWC Communities, falling 18.3 miles (29.5 km) short at the closest point (Highland)

²⁸ 11 FCC Rcd at 22565-69.

²⁹ *Time Warner NY Cable LLC*, 22 FCC Rcd 16026, 16029 (MB 2007).

³⁰ 26 FCC Rcd at 14457.

³¹ *See Continental Cablevision of Western New England*, 11 FCC Rcd at 6510.

³² Digital noise-limited contour coverage, and previously analog Grade B coverage, generally has been held to demonstrate a station's service to cable communities and to reflect a station's natural geographic market. *See Report and Order* at 2977.

³³ *See Mountain Broadcasting Corporation*, 27 FCC Rcd 2231, 2233 n.9 (MB 2012).

³⁴ *See Exhibit 6.*

and 80.7 miles (129.8 km) short at the farther point (Fremont).³⁵ The Engineering Statement also reports that the average distance from the nearest edge of the cable communities to the predicted WLNY-TV 41 dBu contour is 46.7 miles (75.2 km).³⁶ The demonstrated absence of WLNY-TV noise-limited contour coverage to the TWC Communities must be accorded substantial evidentiary weight by the Bureau in this proceeding.³⁷

3. Programming Factor

Under the market modification criteria, a station may also demonstrate “service” to a cable community by airing programming that has a distinct nexus to the community. WLNY-TV fails to meet this test as well. WLNY-TV’s programming schedule appears to consist primarily of paid programming, syndicated programming, movies and religious programming.³⁸ There appears to be no programming that is specifically aimed at the needs of residents in the distant TWC Communities, who live well beyond WLNY-TV’s service area. Indeed, the general interest programming that predominates WLNY-TV’s schedule does not appear to be specifically aimed at the needs of any particular group of residents, even those that might live within WLNY-TV’s service area. Without any direct local programming connection to the TWC Communities, WLNY-TV’s presence in the same DMA is insufficient to establish WLNY-TV as a local station to the TWC Communities.

The absence of a nexus between WLNY-TV and the TWC Communities is further evidenced by the lack of WLNY-TV exposure in the principal local print sources of television

³⁵ As the Engineering Statement notes, the use of the Longley-Rice model would not meaningfully extend WLNY-TV’s service area closer to any of the TWC Communities.

³⁶ *Id.*

³⁷ See, e.g., *Comcast Cable Communications*, 26 FCC Rcd at 14456-57; *Massillon Cable TV, Inc.*, 26 FCC Rcd at 15230; *Time Warner NY Cable LLC*, 22 FCC Rcd at 16030.

³⁸ See Exhibit 7.

station listings for residents of the TWC Communities. Thus the, *Times Herald-Record*, the daily newspaper serving Orange, Sullivan and Ulster Counties, the *Poughkeepsie Journal*, the daily newspaper serving Dutchess County and other portions of the Hudson Valley and *The Daily Freeman*, the daily newspaper serving Ulster County and portions of Dutchess County, do not include WLNY-TV among the local stations listed for television viewers.³⁹ The absence of WLNY-TV from local print source television listings is additional evidence of the station's lack of ties to the TWC Communities.⁴⁰

In conclusion, it is evident that WLNY-TV has failed to satisfy any of the local coverage elements that the Commission evaluates as part of the market modification analysis. The TWC Communities are unquestionably remote from WLNY-TV in all respects. There is also a significant failure of WLNY-TV signal coverage over the TWC Communities; none of WLNY-TV's programming is specifically directed to the TWC Communities; and there are no other ties between WLNY-TV and residents of the TWC Communities.

C. The Hudson Valley System Carries In-State Television Stations That Cover News, Sporting Events, and Issues of Concern to the TWC Communities.

The Hudson Valley System offers slightly different broadcast channel lineups to its subscribers depending on the area in which they reside. Copies of the five channel lineups are attached.⁴¹ As shown, the Hudson Valley System offers customers numerous regional television broadcast services. A number of the in-market stations carried by the Hudson Valley System broadcast local news throughout the weekday morning, mid-day and early and late evening time

³⁹ See Exhibits 8-10.

⁴⁰ See, e.g., *Time Warner NY Cable LLC*, 22 FCC Rcd at 16029.

⁴¹ See Exhibit 11.

periods.⁴² A review of the programming schedules for these stations carried by the Hudson Valley System shows that TWC's subscribers currently enjoy a wide range of news, sports, public affairs and public service coverage from in-state stations. When a distant station proposed for deletion is not providing local service to the cable communities, *i.e.* WLNY-TV, the Commission has accorded evidentiary weight to the coverage provided by other stations.⁴³

D. WLNY-TV is Not Viewed Over-the-Air in the TWC Communities.

The Commission is also required to consider a television station's viewing patterns in cable and noncable households as part of the market modification analysis. To TWC's knowledge, WLNY-TV fails to achieve reportable off-air viewing in the counties in which the Hudson Valley System operates.⁴⁴ This dearth of viewership is consistent with the absence of digital noise-limited signal coverage to the TWC Communities and the distances separating the Hudson Valley area from WLNY-TV. In light of the absence of any technical or programming coverage by WLNY-TV to the TWC Communities, the lack of an audience for WLNY-TV in the TWC Communities has evidentiary significance in this proceeding.⁴⁵

Conclusion

It is well-settled that when a television station is geographically distant from the cable community at issue and fails to provide local service to that community, the Commission will delete the community from the station's DMA for mandatory carriage purposes. A station is not guaranteed the right to carriage throughout its DMA, and thus the Commission may conclude that a cable community is so far removed from the station that it cannot be deemed to be part of

⁴² See Exhibits 8-10.

⁴³ See, *e.g.*, *Massillon Cable TV, Inc.*, 26 FCC Rcd at 15230-31.

⁴⁴ WLNY-TV may refute TWC's understanding in its opposition to this Petition.

⁴⁵ See, *e.g.*, *Avenue TV Cable Service, Inc.*, 16 FCC Rcd 16436 (MB 2001).

the station's market. Indeed, in one of the market modifications where communities in the New York market were deleted from WLNY-TV's market, the Commission stated that:

the broadcast signal carriage rules were not intended to transform an otherwise local station into a regional 'superstation' that must be automatically carried in every single community in [a market].⁴⁶

TWC has demonstrated conclusively that the TWC communities should be excluded from WLNY-TV's DMA. TWC has shown that WLNY-TV has never been carried by the Hudson Valley System during the station's almost 27 year history, nor is WLNY-TV carried by nearby cable systems. Further, the digital noise-limited contour of WLNY-TV falls well short of any of the distant TWC Communities. Moreover, there is no nexus whatsoever between WLNY-TV and the TWC Communities. In addition, WLNY-TV fails to broadcast any programming of specific local interest or import for television viewers in the TWC Communities. Finally, the local news, public affairs and public service programming needs and interests of TWC's subscribers are being met by the current offerings of other stations carried by the Hudson Valley System. Consistent with the Commission's previous market modification decisions, including the four involving WLNY-TV, which involved circumstances substantially identical to those present here, the Media Bureau should grant the instant request for special relief.

⁴⁶ *Time Warner Entertainment*, 11 FCC Rcd at 6553-54.

Verification

The undersigned certifies that he has read the submission and to the best of his knowledge, information and belief formed after reasonable inquiry, it is well grounded in fact and its warranted by existing law; and that it is not interposed for any improper purpose.

Bold indicates channels in HD. The channels in blue will be re-located to channels 1012-1194 between March 27th and June 15th. Visit Optimum.net/newintl.

Ch. 18 (excluding Orange County), Ch. 31 and Ch. 66 may be periodically interrupted with alternate programming. Customers who do not have digital equipment will receive Cablevision Channel Guide on Ch. 14. CableCARD customers will continue to view Travel Channel HD on Ch. 763, iO Sports HD on Ch. 773 and iO Sports2 HD on Ch. 774. Programming subject to change or discontinuance. A digital cable box, HD digital cable box, CableCARD or a QAM tuner is needed to receive certain channels. Customers with QAM tuners will receive some channels on non-standard channel positions. All HD channels require an HDTV. Channel availability depends on level of service and equipment. ©2012 CSC Holdings, LLC.
